

Business Customer Bonuses/Incentives 2009

Hurry to qualify for cash rebate bonuses and extra funding while you increase your energy savings

We're here to assist you from project start to finish. Participate in our energy conservation programs and we'll help you discover the best ways to save energy and money. When you implement the recommendations from a refrigeration conservation project, recommissioning or compressed air study, you'll notice the results on your bottom line.

The following energy efficiency programs from Xcel Energy offer cash rebate bonuses and extra funding for a limited time to business customers in Minnesota. See xcelenergy.com/rebates for official bonus rules.

Conservation Program	\$ Amount and Type of Bonus or Incentive	Duration
Commercial Real Estate Efficiency	Up to a 30% bonus on all implementations recommended in your study	Implementation must be completed by December 11, 2009
Custom Efficiency - refrigeration rebate	Up to 30% rebate bonus	Qualifying projects installed and submitted by June 30, 2009 (preapproved 4/24/08 or after)
Compressed Air Efficiency	Up to 30% rebate bonus for study recommendations	Must be installed by June 30, 2009
